

## Datasheet

# eBlocker 2 Family

The **eBlocker 2 Family** is a small computer that is connected to your home network and protects your privacy on the Internet. It anonymizes your online behavior, blocks data collectors and data collecting ads and offers comprehensive parental control features. The device does not collect any data. Simply connect the eBlocker to your router. It works with **any** browser and without any software installation on **any** Internet-enabled device - including Smart TVs and game consoles. This distinguishes the eBlocker from conventional browser plugins against trackers and online advertising.

The **eBlocker 2 Family** is the perfect plug & play solution to protect your online privacy. It contains all features of eBlocker 2 Pro and also enables individual **exception and block lists** for each user. The Parental control filters are regularly extended. eBlocker 2 Family comes with a one-year or lifetime license.
