Device Description

USB
(for extensions)

LAN

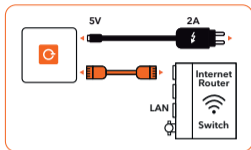

HDMI
(not in use)

Power jack

Technical Specifications

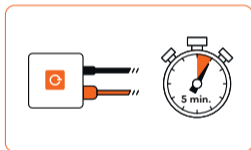

- 1 x 10/100/1000 LAN RJ45
- 1 x Power supply 5V ($\geq 2A$)
- 1 x WiFi 802.11 b/g/n
- 2 x USB 2.0 (for extensions)
- 1 x HDMI (not in use)
- Power consumption: <10W
- Dimensions: 3.5x3.5x3.5in
- Weight: ca. 150g (5.3oz)

Installation

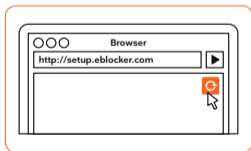

1. Plug in

Start by connecting your eBlocker with the orange LAN cable to your router or switch first. **Then** connect the enclosed power supply to power up your eBlocker.

2. Auto-Configuration

Please wait for 5 minutes to let eBlocker configure itself automatically. Then start a web browser and go to <http://setup.eblocker.com>

3. Start

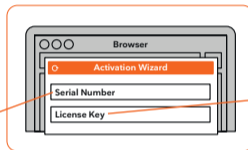

The eBlocker Icon appears at the top right corner of the browser window. Click on the icon to open the Controlbar and start the Activation Wizard.

Activation

The Activation Wizard requires the **serial number** of your eBlocker, your **license key** and a valid **email address**.

Type plate

License key card

Please find the **serial number** on the type plate at the bottom of the package and at the bottom of the device. It has the format "SNXXXXXXXX".

Please use a valid email address for free support.

Please find the **license key** on the license card, which is included with the device.

Safety Notes

Please mind the following safety notes before using your eBlocker:

- Your eBlocker does not have a power switch. To switch off or reboot your eBlocker please go to „Settings>System>Shutdown“ or disconnect the power supply.
- Please protect your eBlocker from moisture, dust, liquids, and vapors.
- Please do not block the air vents of your eBlocker.
- Never disconnect the power supply or network connection during an update. This can damage the eBlocker irreparably.
- In case of wall mounting your eBlocker, please ensure that no wires or piping can be damaged behind the mounting surface.
